SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT (37 C.F.R. § 1.97(b))

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

With regard to the above-identified application, the items of information listed on the enclosed Form 1449 are brought to the attention of the Examiner.

This statement should be considered because it is submitted before the mailing of a first Office Action after the filing of a Request for Continued Examination under 37 C.F.R. § 1.114 or a CPA under 37 C.F.R. § 1.53(d). Accordingly, no fee is due for consideration of the items listed on the enclosed Form 1449.

This Supplemental Information Disclosure Statement encloses litigation documents. U.S. Patent Nos. 6,010,729, U.S. Patent No. 6,103,286, and U.S. Patent No. 6,113,963, are assigned to Ecolab and are currently the subject of pending litigation in the U.S. District Court, District of Minnesota. The litigation is captioned Ecolab, Inc. v. FMC Corporation, Case No. 0:05-cv-00831-JMR-FLN. Plaintiff Ecolab commenced the litigation by asserting infringement of these patents in a Complaint filed April 26, 2005. The litigation is presently in the discovery stage. Pursuant to the first paragraph of MPEP §2001.06(c), applicants are bringing the documents listed on the Form 1449 to the Examiner's attention.

Neither the items listed on the Form 1449 nor the other litigation documents are believed to identify with particularity any assertions made by applicants in the litigation that would be contradictory to assertions made by applicants to the Examiner responsible for the present application or the Examiner responsible for the priority applications. Applicants do not believe they have made any such contradictory assertions.

The documents in the litigation include the prosecution histories for US 6,010,729, U.S. Patent No. 6,103,286, U.S. Patent No. 6,113,963, and U.S. Patent No. 5,632,676. Copies of these file histories are not submitted herewith. Applicants believe the Examiner can readily obtain these prosecution histories at the Patent Office. Applicants invite him to do so.

If desired by the Examiner, Applicants can provide copies of any of the other papers filed in the litigation (e.g., interrogatories and responses, deposition transcripts, and the like) and not already included with this Supplemental Information Disclosure Statement, subject to applicable confidentiality restrictions. The Examiner is also invited to contact Applicants' Representative at the below-listed telephone number, if there are any questions regarding this Supplemental Information Disclosure Statement or if any other assistance is needed during prosecution of the present application.

No representation is made that a reference is "prior art" within the meaning of 35 U.S.C. §§ 102 and 103 and Applicants reserve the right, pursuant to 37 C.F.R. § 1.131 or otherwise, to establish that the reference(s) are not "prior art." Moreover, Applicants do not represent that a reference has been thoroughly reviewed or that any relevance of any portion of a reference is intended.

Serial No. 10/823,005

Group Art Unit: 3644

Consideration of the items listed is respectfully requested. Pursuant to the provisions of M.P.E.P. 609, it is requested that the Examiner return a copy of the attached Form 1449, marked as being considered and initialed by the Examiner, to the undersigned with the next official communication.

Please charge any additional fees or credit any overpayment to Deposit Account No. 13-2725.

Respectfully submitted,
